CODIFY

If you are looking for the ultimate ski and snowboard goggle to DEFEAT FLAT LIGHT with a sharp, minimal aesthetic and an oversized field of view, SHRED. Codify is your choice. Its near-frameless design delivers a bold, modern look while maximizing visibility. The CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0) technology defeats flat light and boosts performance in all weather and light conditions. Paired with NODISTORTION™, you get crisp, undistorted clarity at every altitude. The SHRED.wide™ architecture expands your field of vision so you see more of the mountain and react sooner. And with the 1-2-3 SHRED REPLACEMENT SYSTEM™, swapping lenses is fast and intuitive. Codify is also OTG compatible, fitting comfortably over most prescription glasses. Codify is built for riders who want cutting-edge vision and a clean, modern frame that lets performance speak for itself.

**FEATURES:**  
**SHRED. CONTRAST BOOSTING LENS™ 2.0** | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.  
\*Select models only. Others feature original CBL™ for enhanced contrast and clarity.  
**SHRED.wide™** | Goggles designed and engineered to maximize your field of view.  
**SHRED. NODISTORTION™** | Pressure regulation valve technology to provide crystal clear vision during altitude change..  
**SHRED. OTG** | Designed to provide compatibility and comfort with prescription glasses.  
**SHRED. NOCLOG™** | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

**VLT% IMPORTANT NOTICE** | VLT% doesn’t fully capture the human eye’s experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens’s polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

Are you searching for the best performing ski and snowboard goggle that defeats FLAT LIGHT while providing the widest field of vision in the game and a distinctive, sleek, and frameless cylindrical lens style? If so, SHRED. Gratify is your best choice. It offers superior fit and comfort and features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)\* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. Boost your confidence and performance for endless fun up and down the mountains. SHRED. Gratify is compatible with most prescription glasses (OTG).

\*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

### FEATURES:

**SHRED. CONTRAST BOOSTING LENS™ 2.0** | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/ Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

\*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

**SHRED.wide™** | Goggles designed and engineered to maximize your field of view.

**SHRED. NODISTORTION™** | Pressure regulation valve technology to provide crystal clear vision during altitude change..

**SHRED. OTG** | Designed to provide compatibility and comfort with prescription glasses.

**SHRED. NOCLOG™** | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

**VLT% IMPORTANT NOTICE** | VLT% doesn't fully capture the human eye's experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

### TECH SPECS:

# NASTIFY

If you're looking for a simple yet stylish smaller-fitting ski and snowboard goggle that provides a wide field of vision and unrivaled fit and comfort, then choose the SHRED. Nastify. It features SHRED.wide™ to maximize your field of view, a Grip on Strap silicone strip to hold them securely in place, and Super Anti Fog treatment. For exceptional comfort, it has an especially flexible frame. The Nastify gives you the confidence and control you need to boost your fun on the mountain.

- FEATURES:**
- SHRED.wide™** | Goggles designed and engineered to maximize your field of view.
  - SUPER ANTI-FOG** | Double lenses combined with a unique heavy duty hydrophilic treatment on the inner lens.
  - GRIP ON STRAP** | A special design on the inside of the strap to ensure the goggles stay in place and don't slip off.

- TECH SPECS:**
- LENS** | Cylindrical double lens | 100% UVA-UVB-UVC protection | Super Anti-Fog
  - FRAME** | Width: 165 mm | Height: 100 mm
  - STRAP** | Width: 40 mm | Approx. 80% R-PET fibers from recycled plastic bottles | Triple silicone line backing | 2-point slide adjustment system
  - WEIGHT** | 130 g
  - FITS BEST** | XS to M helmet size
  - IN THE BOX:**
  - 1 pair of SHRED. Nastify goggles | 1 SHRED. goggle soft case
  - SHRED. goggles packaging is 100% plastic free

# HELMETS

SNOW | 2026-2027

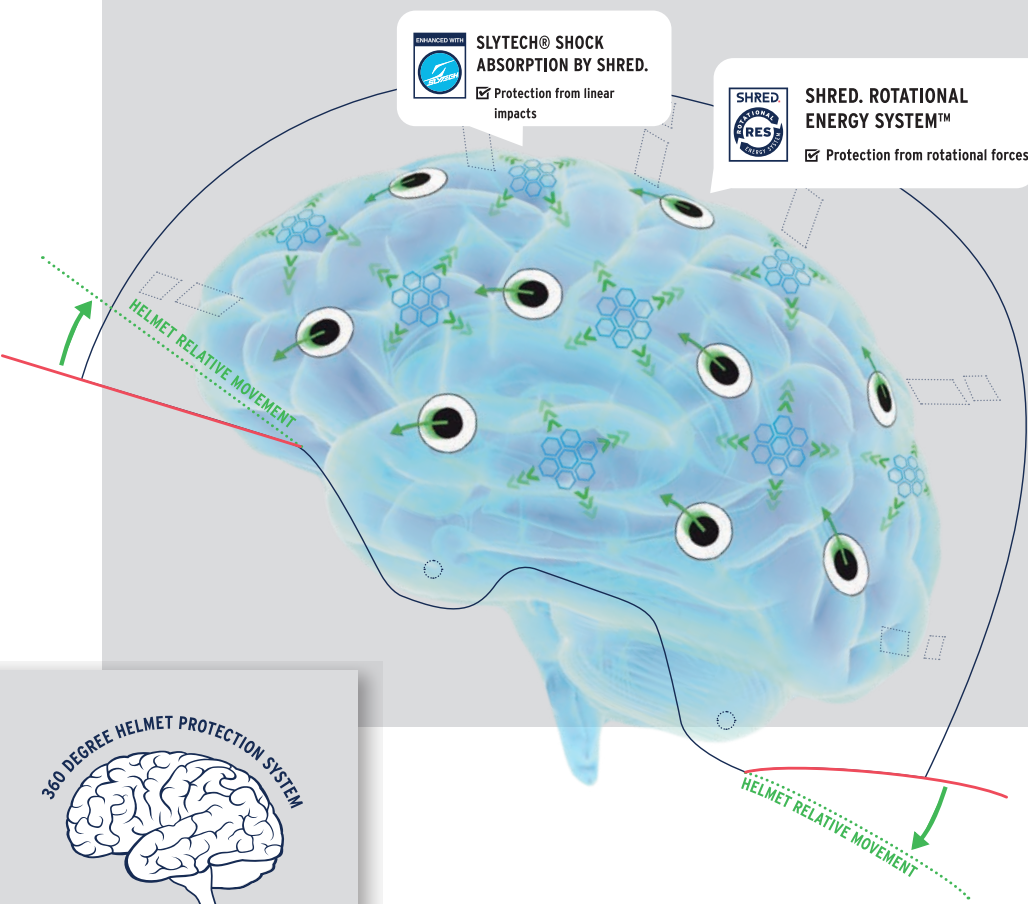

## SMART IMPACT PROTECTION

Powered by SHRED's Rotational Energy System™ and SLYTECH® Shock Absorption.

TECHNOLOGY | SNOW 2026-2027

## HELMETS TECHNOLOGY

To boost your confidence and fun, SHRED's Smart Impact Protection System™ effectively combats both rotational and linear forces. Simply put, this reduces harmful forces transmitted to your brain. SHRED's Rotational Energy System™ offers the lightest and thinnest solution for addressing rotational forces while SLYTECH® Shock Absorption maximizes the helmet's ability to dissipate linear impact energy. Unleash your potential with SHRED's Smart Impact Protection System.™

# NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED's SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

- FEATURES:**
- SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.
  - SLYTECH® SHOCK ABSORPTION** | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.
  - XT2®** | Anti-microbial technology to provide permanent odor protection.
  - VENTILATION** | 3-position switch controls top, back and side vents simultaneously.
  - RECCO®** | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.
  - FIDLOCK®** | Magnetic closure to enhance convenience, security, and efficiency.
  - HEXAFLOW™** | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

- TECH SPECS:**
- CONSTRUCTION** | Hybrid | Integrated SLYTECH® NoShock honeycomb | 16 vents
  - SAFETY STANDARDS** | EN1077B (Europe snow) | ASTMF2040 (USA snow)
  - MATERIAL** | PC | SHRED. Shield toughened ABS | Super Light EPS | SLYTECH® Shock Absorption
  - WEIGHT** | 495 g [Size S]

Compatible with Totality NoShock  
and Totality.

FEATURES:

**SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorpti-on units made with an elastic layer.

**SLYTECH® SHOCK ABSORPTION** | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the hel-met's EPS impact absorption element.

**XT2®** | Anti-microbial technology to provide permanent odor protection.

**VENTILATION** | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

**SL CHIN GUARD** | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

TECH SPECS:

**CONSTRUCTION** | Hard Shell | Integrated SLYTECH® NoShock honeycomb | 12 vents

2ND SKIN™ BACK PROTECTOR LINE  
Technology Developed with MIT

## 2ND SKIN BACK PROTECTOR HEAVY DUTY

For those who demand the highest level of protection without compromising on comfort, the SHRED. 2ND SKIN Back Protector Heavy Duty is the ultimate choice. Engineered with our redefined Slytech® 2ND SKIN™ material, it provides advanced impact absorption while meeting the rigorous Level 2 safety standard. The innovative HexaFlow™ 3D hexagonal structure ensures unmatched flexibility, ventilation, and a lightweight feel, allowing you to push your limits with confidence. Designed for skiers and snowboarders who won't settle for less, the SHRED. Back Protector Heavy Duty Naked keeps you protected, comfortable, and ready to conquer every run.

### FEATURES

**SLYTECH® 2ND SKIN™** | Engineered to feel like a natural extension of your body, it offers unmatched comfort and flexibility without compromising protection. Soft and pliable as you ride, it hardens instantly upon impact to shield you from even the harshest crashes. With SLYTECH® 2ND SKIN™, experience the pinnacle of innovation where protection and comfort become one.

**SLYTECH® HexaFlow™** | Advanced 3D hexagonal structure that significantly enhances the performance, comfort, and protection of our proprietary SLYTECH® 2ND SKIN™ technology by reducing weight, increasing flexibility, and optimizing ventilation.

# SHIN GUARDS

If you're a ski racer looking for exceptional performance when you clear slalom gates, SHRED. Shin Guards are just what you need. Thanks to their SLYTECH® SHIELD and GATE GLIDE friction-management technology, they provide unmatched shin protection and gate clearing speed. SHRED. Shin Guards give you the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

**SLYTECH™ SHIELD** | A sturdy material blend engineered with the most advanced technopolymers to make it extremely stiff and durable at all temperatures.

**GATE GLIDE** | SLYTECH® SHIELD features NOFRICTION technology additives that minimize friction between the shell and the gate to maximize speed.

1 SHRED. Shin Guards Pro

# ARM GUARDS

If you're a ski racer looking for exceptional performance when you clear giant slalom and super-G gates, SHRED. Arm Guards are the clear contender. Thanks to their SLYTECH® SHIELD and GATE GLIDE friction-management technology, they provide unmatched forearm protection and gate clearing speed. SHRED. Arm Guards give you the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

**SLYTECH® SHIELD** | A sturdy material blend engineered with the most advanced technopolymers to make it extremely stiff and durable at all temperatures.

**GATE GLIDE** | SLYTECH® SHIELD features NOFRICTION technology additives that minimize friction between the shell and the gate to maximize speed.

## ARM GUARDS GREY/RUST - S

CODE: GUAGSM21S
