SHRED.

SIMPLIFY+

If you're looking for the best performing ski and snowboard goggle that defeats flat light while providing the widest field of vision in the game and a sleek, almost frameless cylindrical lens style, then SHRED. Simplify is your best choice. It features CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* / CONTRAST BOOSTING LENS™ (CBL) and NODISTORTION™ technology to enhance contrast and image definition, SHRED.wide™ to maximize field of view, and a 1-2-3 SHRED REPLACEMENT SYSTEM™ that in just 3 easy steps lets you swap between the included "sun and clouds" and "snow and overcast" CBL lenses. Unleash your potential and take control of the mountains for endless fun. SHRED. Simplify is compatible with prescription glasses (OTG).

*Available in select models.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather and light conditions || **SHRED. CONTRAST BOOSTING LENS™ 2.0*** Enhances image contrast and definition even further for all weather and light conditions by killing flat light and glare.

*Available in select models.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change.

1-2-3 SHRED. REPLACEMENT SYSTEM™ | 3-step quick and easy lens replacement.

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED's SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

RECCO® | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

FIDLOCK® | Magnetic closure to enhance convenience, security, and efficiency.

HEXAFLOW™ | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorptions units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards.

SAFETY STANDARDS | EN1077B (Europe snow) | ASTM F2040 (USA snow)

MATERIAL | SHRED. Shield toughened ABS | Super Light EPS | Slytech™ Shock Absorption

WEIGHT | 460 g [Size S]

IN THE BOX:

1 SHRED. Totality NoShock helmet | 1 SHRED. soft helmet bag

SHRED. helmets packaging is 100% plastic free

BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its **ROTATIONAL ENERGY SYSTEM™ (RES)**—which is the lightest and thinnest solution for addressing rotational forces—is paired with **Casidion™**—a nanotechnology-based impact liner that's thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

CASIDION™ | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

XT2® | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards.

FLEXI BACK PROTECTORS

Are you searching for a back protector that offers maximum comfort so you can forget you're wearing protection until you truly need it? Then the SHRED. Flexi Back Protectors are the perfect choice. By using SLYTECH™ SHOCK ABSORPTION in the FLEXI hexagon structure, they're especially thin and light while also offering unrivaled flexibility and certified impact energy absorption performance (Level 1). Turn to the SHRED. Flexi Back Protectors for unconstrained confidence that enables you to push your limits, feel like a pro, and have fun.

FEATURES

SLYTECH™ SHOCK ABSORPTION | Our proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

SLYTECH™ Flexi | Slytech™ Shock Absorption molded with a hexagon structure is especially thin and light while also offering unrivaled flexibility and certified impact energy absorption.

CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH™ SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH™ SHIELD CARBON | A high performance material blend that combines carbon fiber technology and our SLYTECH™ SHIELD CARBON material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

ADVANCED GATE GLIDE™ | NOFRICTION PTFE™ technology blends PTFE into the SLYTECH™ SHIELD CARBON composite material. This serves as a lubricant, reducing friction and drag between the guard and gates to boost speed.

SHIN GUARDS

If you're a ski racer looking for exceptional performance when you clear slalom gates, SHRED. Shin Guards are just what you need. Thanks to their SLYTECH™ SHIELD and GATE GLIDE friction-management technology, they provide unmatched shin protection and gate clearing speed. SHRED. Shin Guards give you the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH™ SHIELD | A sturdy material blend engineered with the most advanced technopolymers to make it extremely stiff and durable at all temperatures.

GATE GLIDE | SLYTECH™ SHIELD features NOFRICTION PTFE™ technology additives that minimize friction between the shell and the gate to maximize speed.

SHIN GUARDS GREY/RUST - PRO
